

Jillamy Donates \$1700 to the Autism Cares Foundation

For Immediate Release
April 28, 2021
Southampton, PA

As part of our recognition of Autism Awareness Month – through an interoffice fundraiser – the Jillamy staff answered the call and raised over \$1,700 for a donation to The Autism Cares Foundation located Southampton, PA.

The mission of the Autism Cares Foundation is to partner with individuals and families living on the autism spectrum to provide integrative resources for life enrichment in a safe and respectful environment. On a daily basis they provide various activities where children and adults with autism can participate. Classes provided include: exercise groups, life skills, and technology. In addition to these classes, families are invited to numerous social gatherings throughout the year.

The Jillamy marketing team had the pleasure of delivering the donation to the Autism Care Foundation directly. Upon arrival we received a tour of the facility and activities areas. We also spent some time talking with the amazing the staff to learn more about the Foundation. One of the many remarkable things we discussed was when the staff was presented with the challenges of the pandemic, they worked tirelessly to create an environment using the technology available to insure everyone had the opportunity to take part in regular activities as if they were on site.

The Jillamy family takes pride in staying active in all of our communities by donating and volunteering. This is a charity that is near and dear to the Jillamy staff, we recognize the caring and compassion given to the individuals and families. We look forward to building a long-lasting relationship with the Autism Cares Foundation.

If you would like to volunteer or donate, visit the Autism Cares Foundation online at autismcaresfoundation.org as well as on social media.
