Jillamy Acquires Ayers Transport

Jillamy Expands Its Transportation Division with Acquisition of Ayers Transport

Chalfont, PA 06/16/2021

Jillamy Inc, a full-service asset based Third-Party Logistics provider, announced today that it has acquired Ayers Transport, a family-run heavy haul transport company.

Founded in 2010, Ayers Transport, based in Grapevine, Texas specializes in hauling large, oversized, heavy loads up to 155,000 pounds. Ayers Transport operates primarily in the southern parts of the United States and the I-35 corridor, transporting construction machinery, oil/gas field equipment, wind energy and other specialized hauls.

"Bringing on Ayers Transport adds more versatility to Jillamy Transportation. Already providing short haul and drayage solutions, the addition of a heavy haul operation will provide our customers access to another specialized freight solution from a trusted provider." said Ted Kuriger, president and co-founder of Jillamy Inc. "We are excited to bring a family operated company into the Jillamy family. Creating a partnership that shares the same values and dedication to their staff /customers is something we pride ourselves on."

The current management team and staff will continue to manage the day-to-day operations at Ayers Transport, providing the same specialized freight services and exemplary customer service. Ayers Transport will maintain its current name and will operate alongside of Jillamy and Jillamy Transportation as our heavy, oversized and large haul division.

About Jillamy Inc.

Jillamy Inc, founded in 2001, offers a full complement of freight forwarding solutions; including customs brokerage as well as logistics, packaging and warehousing services. Jillamy is a fully-integrated transportation service network excelling in fulfilling customers' unique contract packaging, warehousing, shipping needs and capacity requirements, while ensuring reasonable costs and reliable deliveries.
